

Carousel

DIGITAL SIGNAGE FRAMEWORK

Carousel is a hardware and software package designed from the ground up to provide organizations with an easy and reliable way to communicate with dynamic digital signage. You can display high definition images, video, text, RSS feeds, live video, meeting management information and many other sources. All this and more, with the power of Carousel.

CAROUSEL YOUR DIGITAL SIGNAGE SOLUTION

Grab their attention! Carousel is an intelligent digital signage system that is designed with simplicity, security, scalability and economy in mind. Start with a single display and expand to nearly limitless channels of signage in multiple buildings. Use existing flash, video and graphics or enter messages directly. Everything is browser based, so there's no software to deploy. It's power and simplicity for digital signage. It's Carousel!

WEB BASED DIGITAL SIGNAGE

With its zero-training, easy to use interface, Carousel is ideal for educational institutions, community television, corporate communications and retail. To get started choose your template, type in your message and schedule it! Stream video, create crawls, inform viewers with alert bulletins and much more!

Carousel Pro Server

A variety of add-ons and plug-ins are available to meet any installation requirement. Visit www.trms.com for a full list of products or give our us a call at (866) 866-4118 ex. 255

ZONE INTERACTION

Carousel has a multi-zone display, allowing you to display multitudes of information in an effortless and professional looking way. Display and share zones in different locations throughout your facility, ensuring staff, visitors and clients get the right information.

Tightrope Creative Design Services - Bridging the gap between user interaction and system design, Tightrope Creative offers a catalog of pre-designed channel designs and templates, as well as custom design services. You gain the convenience of a no-hassle setup with the design you want, which makes Tightrope Creative the ideal solution. Custom configurations also available. Visit: store.trms.com

Interactive Touch - Add interactivity to your Carousel digital signage system with Carousel Interactive Touch. Combined with a touch screen panel, your viewers can now explore digital signage in a tactile way.

Carousel Solo 220 - This edition of the Carousel Solo is whisper quiet for desktop operation or for mounting closer to the display using the included mounting brackets! Also available in a rackmount version.

Carousel Server - Digital signage designed for schools, community television and installations that do not need more than three channels. Includes one player output.

Carousel Pro - Up to 200 channels of digital signage for multiple site installations and advanced data integration needs.

* Carousel Enterprise is a software only solution and does not include any player hardware, which may be purchased separately. Carousel Players may be used for any Carousel Server, including Carousel Enterprise. See dealer for details.

** Carousel Pro does not include any display engine or channel license and therefore does not have any native playback ability. Up to 200 Carousel Players, display engines and channel licenses (or combination thereof) may be added for display capability.

*** Additional channels require Carousel players or channel/display engine licensing. See dealer for details.

**** Crawls do not work on channels that run in portrait mode.
