

All the essentials

The InFocus IN100 series offers all of the essential functions and features presenters need in an affordable, reliable projector. It's easy to use and projects high-quality images every time thanks to the true-to-life colors of Texas Instruments DLP® technology with InFocus BrilliantColor™ implementation.

- **2500 lumens** and up to **UXGA resolution** for stunning presentations
- **Multiple computer inputs** provide easy ways to connect
- **Filter-free design** for less maintenance and 24/7 operation
- **Compact size** and light weight for easy mobility
- **High quality design** is backed by a 5-year limited warranty

Bright and Brilliant

A high brightness of 2500 lumens means the IN100 series is bright enough in environments with high ambient light. The award-winning InFocus BrilliantColor implementation brings rich, realistic color to any presentation.

Flexible

The IN100 series offers multiple computer inputs for flexibility in any environment. Both models are compatible with LiteShow II™ wireless adapter, allowing cable-free presentations. The LiteShow II lets users switch presenters in seconds and transmit data, audio, and video over a 300' range (91 m).
